# ENERCON 4-24 PLUS Battery Powered Controller

## ENERCON PLUS Features and Advantages

1. CIT tested “smart” *Temperature Budgeting* technology
2. Simple Set it, Don’t Sweat it® programming with function rotary switch
3. Base model expandable with 4 station modules up to 24 stations
4. Up to 5 year battery life with low battery indication
5. 16 gauge 304 grade stainless steel pedestal standard
6. 2000 foot valve operating distance with 14 gauge wire
7. Normally open or normally closed master valve operation
8. Four independent programs with 4 start times per program
9. Automatic, semi-automatic, and timed manual operation
10. Manual, monthly, and temperature water budgeting in 1% increments
11. Days of the week or interval of days up to 99 days scheduling
12. Rain delay up to 99 days
13. Rain switch input
14. Station times up to 24 hours in one minute increments
15. Adjustable delay between stations up to 99 seconds
16. Enercon Plus can use existing AC wiring
17. Enercon system compatible with most existing valves
18. Large wiring area for ease of installation and service
19. Plug in modules offer easy expansion and quick servicing
20. Optional lightning protection available on output board
21. Easy to read high temperature rated display
22. Electrically safe installation and servicing
23. Energy saving technology recognized by U.S. Dept. of Energy
24. Competitively priced
25. Two year full warranty, including batteries

Enercon Plus- 16 Stations shown

## Options:

- RSP — Rain Switch Pole mount
- RTSP — Rain and Temperature Sensors Pole mount
- TS — Temperature Sensor mounted within pedestal
- LS — Latching Solenoid
- RBA — Rainbird solenoid adapter
- WMA — Weathermatic solenoid adapter
- LP — Lightning Protection
